July 15, 2020

Hong Kong - July 15, 2020 – Creating a high-trust, high-performance workplace is not an easy task, especially this year, Rackspace Technology is very proud to be selected as the "Best Workplace in Hong Kong™ 2020. One of only 16 companies recognised in Hong Kong, the award is assessed on employees' perspectives on leadership, organizational culture, and trust.

According to Great Place to Work® **TRUST** continues to be the fundamental key to success in all kinds of workplaces. Now that we are all facing this unprecedented challenge of COVID-19, which makes it harder to remain motivated and engaged, TRUST reclaims its strategic value. Especially in the current situation, we are honoured to be recognized by our employees that "This is a great place to work."

"Ultimately, this recognition belongs to our employees, the Hong Kong Rackers. With the pandemic as the backdrop, the Rackers showed the willingness to step up to the challenge and contribute to the success of the business. Despite work from home arrangements due to health risks stemming from the pandemic, employees remained committed to offering assurance to each other that we are all in this together." explained James Hung, the Managing Director for North Asia, Rackspace Technology.

"We are proud to be recognised as a great place to work.

This acknowledgement is a true testimony to our relentless efforts in fostering an environment that encourages our employees to treat each other as friends and family and providing the support our employees need to deliver excellent results," said Hung.
