## Financial Outlook

Rackspace Technology is providing guidance as follows:

	<b>Q1 2022 Guidance</b>
<b>Revenue</b>	\$768 - \$778 million
<b>Core Revenue</b>	\$730 - \$738 million
<b>Non-GAAP Operating Profit</b>	\$108 - \$112 million
<b>Non-GAAP Earnings Per Share</b>	\$0.20 - \$0.22
<b>Non-GAAP Other Income (Expense)<sup>1</sup></b>	(\$51) – (\$52) million
<b>Non-GAAP Tax Expense Rate</b>	26 %
<b>Non-GAAP Weighted Average Shares</b>	214 – 216 million

<sup>1</sup> Non-GAAP Other Income (Expense) is only expected to include interest expense.

Definitions of non-GAAP financial measures and the reconciliations to the most directly comparable measures in accordance with generally accepted accounting principles in the United States (“GAAP”) are provided in subsequent sections of this press release narrative and supplemental schedules. Rackspace Technology has not reconciled Non-GAAP Operating Profit, Non-GAAP Earnings Per Share, Non-GAAP Other Income (Expense) or Non-GAAP Tax Expense Rate guidance to the most directly comparable GAAP measure because it does not provide guidance on GAAP net income (loss) or the reconciling items between these Non-GAAP measures and GAAP net income (loss) as a result of the uncertainty regarding, and the potential variability of, certain of these items, such as share-based compensation expense. Accordingly, a reconciliation of the non-GAAP financial measure guidance to the corresponding GAAP measure is not available without unreasonable effort. With respect to Non-GAAP Operating Profit, Non-GAAP Earnings Per Share, Non-GAAP Other Income (Expense) and Non-GAAP Tax Expense Rate guidance, adjustments in future periods are generally expected to be similar to the kinds of charges and costs excluded from these Non-GAAP measures in prior periods, but the impact of such adjustments could be significant.

## **Non-GAAP Financial Measures**

This press release includes several non-GAAP financial measures such as constant currency revenue, Non-GAAP Gross Profit, Non-GAAP Net Income (Loss), Non-GAAP Operating Profit, Adjusted EBITDA and Non-GAAP Earnings Per Share (“EPS”). These non-GAAP financial measures exclude the impact of certain costs, losses and gains that are required to be included in our profit and loss measures under GAAP. Although we believe these measures are useful to investors and analysts for the same reasons they are useful to management, as described in the accompanying pages, these measures are not a substitute for, or superior to, GAAP financial measures or disclosures. Other companies may calculate similarly-titled non-GAAP measures differently, limiting their usefulness as comparative measures. We have reconciled each of these non-GAAP measures to the applicable most comparable GAAP measure in the accompanying pages.

## NON-GAAP FINANCIAL MEASURES

### *Constant Currency Revenue*

We use constant currency revenue as an additional metric for understanding and assessing our growth excluding the effect of foreign currency rate fluctuations on our international business operations. Constant currency information compares results between periods as if exchange rates had remained constant period over period and is calculated by translating the non-U.S. dollar income statement balances for the most current period to U.S. dollars using the average exchange rate from the comparative period rather than the actual exchange rates in effect during the respective period. We also believe this is an important metric to help investors evaluate our performance in comparison to prior periods.

### **Non-GAAP Gross Profit**

We present Non-GAAP Gross Profit, which represents the total of our individual segment gross profit measures, because we believe the measure is useful in analyzing trends in our underlying, recurring gross margins. We define Non-GAAP Gross Profit as our consolidated gross profit, adjusted to exclude the impact of share-based compensation expense and other non-recurring or unusual compensation items, purchase accounting-related effects, and certain business transformation-related costs.

(In millions)	<b>Three Months Ended December 31,</b>		<b>Year Ended December 31,</b>	
	<b>2020</b>	<b>2021</b>	<b>2020</b>	<b>2021</b>

Non-GAAP Gross Profit	<u>\$ 262.9</u>	<u>\$ 246.1</u>	<u>\$ 1,026.0</u>	<u>\$ 996.4</u>

- (1) Adjustments for retention bonuses, mainly in connection with restructuring and transformation projects, and the related payroll tax, and payroll taxes associated with the exercise of stock options and vesting of restricted stock.
- (2) Adjustment for the impact of purchase accounting from the November 2016 merger on expenses.
- (3) Adjustment for the impact of business transformation and optimization activities, as well as associated severance, facility closure costs and lease termination expenses. This amount also includes certain costs associated with the July 2021 Restructuring Plan which are not accounted for as exit and disposal costs under ASC 420, including one-time offshore build out costs.

### ***Non-GAAP Net Income (Loss), Non-GAAP Operating Profit and Adjusted EBITDA***

We present Non-GAAP Net Income (Loss), Non-GAAP Operating Profit and Adjusted EBITDA because they are a basis upon which management assesses our performance and we believe they are useful to evaluating our financial performance. We believe that excluding items from net income that may not be indicative of, or are unrelated to, our core operating results, and that may vary in frequency or magnitude, enhances the comparability of our results and provides a better baseline for analyzing trends in our business.

We define Non-GAAP Net Income (Loss) as net income (loss) adjusted to exclude the impact of non-cash charges for share-based compensation, special bonuses and other compensation expense, transaction-related costs and adjustments, restructuring and transformation charges, management fees, the amortization of acquired intangible assets and certain other non-operating, non-recurring or non-core gains and losses, as well as the tax effects of these non-GAAP adjustments.

We define Non-GAAP Operating Profit as income (loss) from operations adjusted to exclude the impact of non-cash charges for share-based compensation, special bonuses and other compensation expense, transaction-related costs and adjustments, restructuring and transformation charges, management fees, the amortization of acquired intangible assets and certain other non-operating, non-recurring or non-core gains and losses, as well as the tax effects of these non-GAAP adjustments.

We define Adjusted EBITDA as net income (loss) adjusted to exclude the impact of non-cash charges for share-based compensation, special bonuses and other compensation expense, transaction-related costs and adjustments, restructuring and transformation charges, management fees, certain other non-operating, non-recurring or non-core gains and losses, interest expense, income taxes, and depreciation and amortization.

Non-GAAP Operating Profit and Adjusted EBITDA are management's principal metrics for measuring our underlying financial performance. Non-GAAP Operating Profit and Adjusted EBITDA, along with other quantitative and qualitative information, are also the principal financial measures used by management and our board of directors in determining performance-based compensation for our management and key employees.

These non-GAAP measures are not intended to imply that we would have generated higher income or avoided net losses if the November 2016 merger and the subsequent transactions and initiatives had not occurred. In the future we may incur expenses or charges such as those added back to calculate Non-GAAP Net Income (Loss), Non-GAAP Operating Profit or Adjusted EBITDA. Our presentation of Non-GAAP Net Income (Loss), Non-GAAP Operating Profit and Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by these items. Other companies, including our peer companies, may calculate similarly-titled measures in a different manner from us, and therefore, our non-GAAP measures may not be comparable to similarly-titled measures of other companies. Investors are cautioned against using these measures to the exclusion of our results in accordance with GAAP.

- (a) Includes expense related to retention bonuses, mainly relating to restructuring and integration projects, and the related payroll tax, senior executive signing bonuses and relocation costs, and payroll taxes associated with the exercise of stock options and vesting of restricted stock. The three months and year ended December 31, 2020 also includes \$13 million for one-time cash bonuses related to successful completion of the IPO.
- (b) Includes legal, professional, accounting and other advisory fees related to the acquisition of Onica in the fourth quarter of 2019 and the IPO in the third quarter of 2020, integration costs of acquired businesses, purchase accounting adjustments (including deferred revenue fair value discount), payroll costs for employees that dedicate significant time to supporting these projects and exploratory acquisition and divestiture costs and expenses related to financing activities.
- (c) Includes consulting and advisory fees related to business transformation and optimization activities, payroll costs for employees that dedicate significant time to these projects, as well as associated severance, facility closure costs and lease termination expenses. This amount also includes employee related costs and other costs related to the July 2021 Restructuring Plan of \$2.9 million and \$25.4 million for the three months and year ended December 31, 2021, respectively, which are accounted for as exit and disposal costs under ASC 420. In addition, it includes certain costs associated with the July 2021 Restructuring Plan which are not accounted for as exit and disposal costs under ASC 420, including one-time offshore build out costs.
- (d) Represents historical management fees pursuant to management consulting agreements. The management consulting agreements were terminated effective August 4, 2020, and therefore no management fees have accrued or will be payable for periods after August 4, 2020.
- (e) Includes gains and losses on investment and from dispositions.
- (f) Includes modification costs and extinguishment losses related to repurchases of 8.625% Senior Notes, the February 2021 Refinancing Transaction and termination of the Receivables Financing Facility.
- (g) Reflects mainly changes in the fair value of foreign currency derivatives.
- (h) All of our intangible assets are attributable to acquisitions, including the November 2016 merger.
- (i) We utilize an estimated structural long-term non-GAAP tax rate in order to provide consistency across reporting periods, removing the effect of non-recurring tax adjustments, which include but are not limited to tax rate changes, U.S. tax reform, share-based compensation, audit conclusions and changes to valuation allowances. We used a structural non-GAAP tax rate of 26% for all periods which reflects the removal of the tax effect of non-GAAP pre-tax adjustments and non-recurring tax adjustments on a year-over-year basis. The non-GAAP tax rate could be subject to change for a variety of reasons, including the rapidly evolving global tax environment, significant changes in our geographic earnings mix including due to acquisition activity, or other changes to our strategy or business operations. We will re-evaluate our long-term non-GAAP tax rate as appropriate. We believe that making these adjustments facilitates a better evaluation of our current operating performance and comparisons to prior periods.
- (j) Excludes accelerated depreciation expense related to facility closures.

### Non-GAAP Earnings Per Share (EPS)

We define Non-GAAP EPS as Non-GAAP Net Income divided by our GAAP average number of shares outstanding for the period on a diluted basis, after giving effect to the twelve-for-one stock split that was approved and effected on July 20, 2020 (the "Stock Split"), and further adjusted for the average number of shares associated with securities which are anti-dilutive to GAAP EPS but dilutive to Non-GAAP EPS. Management uses Non-GAAP EPS to evaluate the performance of our business on a comparable basis from period to period, including by adjusting for the impact of the issuance of shares that would be dilutive to Non-GAAP EPS.

- (a) Reflects impact of awards that would have been anti-dilutive to Net loss per share, and therefore not included in the calculation, but would be dilutive to Non-GAAP EPS and are therefore included in the share count for purposes of this non-GAAP measure. Potential common share equivalents consist of shares issuable upon the exercise of stock options, vesting of restricted stock or purchase under the Employee Stock Purchase Plan (the "ESPP"), as well as contingent shares associated with our acquisition of Datapipe Parent, Inc. Certain of our potential common share equivalents are contingent on Apollo achieving pre-established performance targets based on a multiple of their invested capital ("MOIC"), which are included in the denominator for the entire period if such shares would be issuable as of the end of the reporting period assuming the end of the reporting period was the end of the contingency period.
- (b) Reflects the aggregate adjustments made to reconcile Non-GAAP Net Income to our net loss, as noted in the above table, divided by the GAAP diluted number of shares outstanding for the relevant period.
