## Forward-Looking Statements

Rackspace Technology has made statements in this presentation and other reports, filings, and other public written and verbal announcements that are forward-looking and therefore subject to risks and uncertainties. All statements, other than statements of historical fact, included in this document are, or could be, “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and are made in reliance on the safe harbor protections provided thereunder. These forward-looking statements relate to anticipated financial performance, management’s plans and objectives for future operations, business prospects, outcome of regulatory proceedings, market conditions, and other matters. Any forward-looking statement made in this presentation speaks only as of the date on which it is made. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise. Forward-looking statements can be identified by various words such as “expects,” “intends,” “will,” “anticipates,” “believes,” “confident,” “continue,” “propose,” “seeks,” “could,” “may,” “should,” “estimates,” “forecasts,” “might,” “goals,” “objectives,” “targets,” “planned,” “projects,” and similar expressions. These forward-looking statements are based on management’s current beliefs and assumptions and on information currently available to management. Rackspace Technology cautions that these statements are subject to risks and uncertainties, many of which are outside of our control, and could cause future events or results to be materially different from those stated or implied in this document, including among others, risk factors that are described in Rackspace Technology, Inc.’s Registration Statement on Form S-1, Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and other filings with the Securities and Exchange Commission, including the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” contained therein.

## Non-GAAP Measures

To provide investors with additional information in connection with our results as determined in accordance with generally accepted accounting principles in the United States (“GAAP”), we disclose Non-GAAP Net Revenue, Non-GAAP Operating Profit, Non-GAAP Net Income (Loss), Non-GAAP Earnings (Loss) Per Share, and Adjusted EBITDA as non-GAAP financial measures. These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing our financial results. Therefore, these measures should not be considered in isolation or as an alternative or superior to GAAP measures. You should be aware that our presentation of these measures may not be comparable to similarly-titled measures used by other companies. Reconciliations of each non-GAAP financial measure to the applicable most comparable GAAP measure can be found in the Appendix.

We present these non-GAAP financial measures to provide investors with meaningful supplemental financial information, in addition to the financial information presented on a GAAP basis. Rackspace Technology management believes that excluding items such as the impacts from foreign currency rate fluctuations on our international business operations or certain costs, losses and gains that may not be indicative of, or are unrelated to, our core operating results, and that may vary in frequency or magnitude, enhances the comparability of our results and provides a better baseline for analyzing trends in our business. Rackspace Technology management believes the non-GAAP measures provided are also considered important measures by financial analysts covering Rackspace Technology as equity research analysts continue to publish estimates and research notes based on our non-GAAP commentary.

Amounts on subsequent pages may not add due to rounding.

# Debt structure overview

\$'s in millions

As of June 30, 2023

## Debt Highlights

- Total debt \$3.2B, Net Debt \$3.1B
- Primarily (~70%) fixed or hedged debt structure
- No funded maturities until 2028 except the \$50M revolver borrowing
- No maintenance covenants
- During Q2, we deployed \$47 million of cash<sup>1</sup> sourced from our revolving credit facility to opportunistically repurchase \$142 million dollars of our senior unsecured notes in the marketplace
- Through July YTD, we have repurchased a total of \$222 million dollars of senior unsecured notes in the marketplace using \$77 million dollars of cash<sup>1</sup>

# Opportunistic debt repurchases have created equity value

Throughout the first 7 months of 2023, Rackspace **successfully retired \$222 million** of its outstanding 5.375% unsecured notes due 2028 via open market repurchases

## Strategic rationale

**Capture attractive discount**, with \$222M in notes repurchased at an average price of 34%, capturing a discount of \$146M

**Enhance cash flow profile** by reducing interest expense ~\$12M annually

**Accelerate de-leveraging** by decreasing debt \$222M while only spending \$77M<sup>1</sup> in cash, **reducing net leverage by ~0.3x<sup>2</sup>**

# Definitions

<b>Non-GAAP Net Revenue</b>	Non-GAAP Net Revenue applies net-accounting to public cloud infrastructure resale revenue. This means only the profit element of infrastructure resale is included in Non-GAAP Net Revenue in addition to public cloud services and private cloud revenues.
<b>Segment Operating Profit</b>	Segment revenue less expenses directly attributable to running the respective segments' business. These expenses exclude centralized corporate function costs.
<b>Corporate Functions</b>	Costs that are not allocated to segments. These costs are related to centralized corporate functions that provide services to the segments in areas such as accounting, information technology, marketing, legal and human resources.
<b>Capital Intensity</b>	Capital intensity reflects capital expenditures divided by revenue for the same period.
<b>Non-GAAP Tax Expense Rate</b>	We utilize an estimated structural long-term non-GAAP tax rate in order to provide consistency across reporting periods, removing the effect of non-recurring tax adjustments, which include but are not limited to tax rate changes, U.S. tax reform, share-based compensation, audit conclusions and changes to valuation allowances. We used a structural non-GAAP tax rate of 26% for all periods which reflects the removal of the tax effect of non-GAAP pre-tax adjustments and non-recurring tax adjustments on a year-over-year basis. The non-GAAP tax rate could be subject to change for a variety of reasons, including the rapidly evolving global tax environment, significant changes in our geographic earnings mix including due to acquisition activity, or other changes to our strategy or business operations. We will re-evaluate our long-term non-GAAP tax rate as appropriate. We believe that making these adjustments facilitates a better evaluation of our current operating performance and comparisons to prior periods.
<b>Non-GAAP Weighted Average Shares</b>	Reflects impact of awards that would have been anti-dilutive to net loss per share, and therefore not included in the calculation, but would be dilutive to Non-GAAP EPS and are therefore included in the share count for purposes of this non-GAAP measure. Potential common share equivalents consist of shares issuable upon the exercise of stock options, vesting of restricted stock units (including performance-based restricted stock units) or purchases under the Employee Stock Purchase Plan (the "ESPP"), as well as contingent shares associated with our acquisition of Datapipe Parent, Inc. Certain of our potential common share equivalents are contingent on Apollo achieving pre-established performance targets based on a multiple of their invested capital ("MOIC"), which are included in the denominator for the entire period if such shares would be issuable as of the end of the reporting period assuming the end of the reporting period was the end of the contingency period.
