SAN ANTONIO, February 26, 2026 – Rackspace Technology, Inc. (Nasdaq: RXT), a leading end-to-end hybrid cloud and AI solutions company, today announced results for its fourth quarter and year ended December 31, 2025.

Gajen Kandiah, Chief Executive Officer, stated, “Q4 capped a year of meaningful progress and marks a clear inflection point for Rackspace. We made the structural decisions that position us to win — a sharpened focus, the right leadership team, anchor partnerships, and a platform engineering model purpose-built for enterprise AI in regulated environments.”

Mr. Kandiah added, “Our 2026 outlook reflects that transition taking hold. Private Cloud is expected to grow year-over-year for the first time in years, and Public Cloud services continue to expand as we deliberately shift toward higher-value enterprise engagements. Together, they form the foundation on which AI is emerging as a tangible and self-reinforcing growth vector. We do not just advise on the journey. We build it, run it, and stay accountable for outcomes. That is what makes Rackspace different, and that is exactly the partner enterprises need right now.”

(1) Constant currency revenue and certain other measures in this release are non-GAAP financial measures. See “Non-GAAP Financial Measures” and the tables that accompany this release for definitions and reconciliations of these non-GAAP measures to the most comparable GAAP measures.

Financial Outlook

Rackspace Technology is providing guidance as follows:

	FY 2026 Guidance
Revenue	\$2,600 - \$2,700 million
Private Cloud Revenue	\$1,025 - \$1,075 million
Public Cloud Revenue	\$1,575 - \$1,625 million
Non-GAAP Operating Profit	\$160 - \$170 million
Adjusted EBITDA	\$305 - \$315 million
Non-GAAP Loss Per Share	(\$0.15) - (\$0.20)
Non-GAAP Other Income (Expense)	(\$220) – (\$230) million
Non-GAAP Tax Expense Rate	26%
Non-GAAP Weighted Average Shares	250 - 260 million

Information about Rackspace Technology’s use of non-GAAP financial measures is provided below under “Non-GAAP Financial Measures”.

Definitions of non-GAAP financial measures and the reconciliations to the most directly comparable measures in accordance with generally accepted accounting principles in the United States (“GAAP”) are provided in subsequent sections of this press release narrative and supplemental schedules. Rackspace Technology has not reconciled Non-GAAP Operating Profit, Adjusted EBITDA, Non-GAAP Loss Per Share, Non-GAAP Other Income (Expense) or Non-GAAP Tax Expense Rate guidance to the most directly comparable GAAP measure because it does not provide guidance on GAAP net income (loss) or the reconciling items between these Non-GAAP measures and GAAP net income (loss) as a result of the uncertainty regarding, and the potential variability of, certain of these items, such as share-based compensation expense. Accordingly, a reconciliation of the non-GAAP financial measure guidance to the corresponding GAAP measure is not available without unreasonable effort. With respect to Non-GAAP Operating Profit, Adjusted EBITDA, Non-GAAP Loss Per Share, Non-GAAP Other Income (Expense) and Non-GAAP Tax Expense Rate guidance, adjustments in future periods are generally expected to be similar to the kinds of charges and costs excluded from these Non-GAAP measures in prior periods, but the impact of such adjustments could be significant.

About Rackspace Technology

Rackspace Technology is a leading end-to-end hybrid cloud and AI solutions company. We can design, build, and operate our customers' cloud environments across all major technology platforms, irrespective of technology stack or deployment model. We partner with our customers at every stage of their cloud journey, enabling them to modernize applications, build new products, and adopt innovative technologies.

Forward-looking Statements

Rackspace Technology has made statements in this press release and other reports, filings, and other public written and verbal announcements that are forward-looking and therefore subject to risks and uncertainties. All statements, other than statements of historical fact, included in this press release are, or could be, "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and are made in reliance on the safe harbor protections provided thereunder. These forward-looking statements relate to anticipated financial performance, management's plans and objectives for future operations, business prospects, outcome of regulatory proceedings, market conditions, and other matters. Any forward-looking statement made in this press release speaks only as of the date on which it is made. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise. Forward-looking statements can be identified by various words such as "expects," "intends," "will," "anticipates," "believes," "confident," "continue," "propose," "seeks," "could," "may," "should," "estimates," "forecasts," "might," "goals," "objectives," "targets," "planned," "projects," and similar expressions. These forward-looking statements are based on management's current beliefs and assumptions and on information currently available to management. Rackspace Technology cautions that these statements are subject to risks and uncertainties, many of which are outside of our control, and could cause future events or results to be materially different from those stated or implied in this press release, including among others, risk factors that are described in Rackspace Technology, Inc.'s Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and other filings with the Securities and Exchange Commission, including the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained therein.

Non-GAAP Financial Measures

This press release includes several non-GAAP financial measures such as constant currency revenue, Non-GAAP Gross Profit, Non-GAAP Net Income (Loss), Non-GAAP Operating Profit, Adjusted EBITDA and Non-GAAP Earnings (Loss) Per Share. These non-GAAP financial measures exclude the impact of certain costs, losses and gains that are required to be included in our profit and loss measures under GAAP. Although we believe these measures are useful to investors and analysts for the same reasons they are useful to management, as described in the accompanying pages, these measures are not a substitute for, or superior to, GAAP financial measures or disclosures. Other companies may calculate similarly-titled non-GAAP measures differently, limiting their usefulness as comparative measures. We have reconciled each of these non-GAAP measures to the applicable most comparable GAAP measure in the accompanying pages.

- (a) Segment revenue less expenses directly attributable to running the respective segments' business. These expenses exclude centralized corporate function costs.
- (b) Costs that are not allocated to segments. These costs are related to centralized corporate functions that provide services to the segments in areas such as accounting, information technology, marketing, legal and human resources.
- (c) Refer to "Non-GAAP Financial Measures" in this section for further explanation and reconciliation.

NON-GAAP FINANCIAL MEASURES

Constant Currency Revenue

We use constant currency revenue as an additional metric for understanding and assessing our growth excluding the effect of foreign currency rate fluctuations on our international business operations. Constant currency information compares results between periods as if exchange rates had remained constant period over period and is calculated by translating the non-U.S. dollar income statement balances for the most current period to U.S. dollars using the average exchange rate from the comparative period rather than the actual exchange rates in effect during the respective period. We also believe this is an important metric to help investors evaluate our performance in comparison to prior periods.

(a) The effect of foreign currency is calculated by translating current period results using the average exchange rate from the prior comparative period.

Non-GAAP Gross Profit

We present Non-GAAP Gross Profit because we believe the measure is useful in analyzing trends in our underlying, recurring gross margins. We define Non-GAAP Gross Profit as gross profit, adjusted to exclude the impact of share-based compensation expense, purchase accounting-related effects, and certain business transformation-related costs.

	Three Months Ended December 31,		Year Ended December 31,	
(In millions)	2024	2025	2024	2025

Non-GAAP Gross Profit	\$ 141.2	\$ 123.6	\$ 562.6	\$ 521.2

(a) Adjustment for the impact of purchase accounting from the November 2016 merger on expenses.

(b) Adjustment for the impact of business transformation and optimization activities, as well as associated severance, certain facility closure costs and lease termination expenses. Also includes payroll taxes associated with the exercise of stock options and vesting of restricted stock.

Non-GAAP Net Income (Loss), Non-GAAP Operating Profit and Adjusted EBITDA

We present Non-GAAP Net Income (Loss), Non-GAAP Operating Profit and Adjusted EBITDA because they are a basis upon which management assesses our performance and we believe they are useful to evaluating our financial performance. We believe that excluding items from net income that may not be indicative of, or are unrelated to, our core operating results, and that may vary in frequency or magnitude, enhances the comparability of our results and provides a better baseline for analyzing trends in our business.

We define Non-GAAP Net Income (Loss) as net income (loss) adjusted to exclude the impact of non-cash charges for share-based compensation, transaction-related costs and adjustments, restructuring and transformation charges, costs related to the Hosted Exchange incident, the amortization of acquired intangible assets, goodwill and asset impairment charges, the interest expense impact from the refinancing transactions announced in March 2024 (the “March 2024 Refinancing Transactions”), and certain other non-operating, non-recurring or non-core gains and losses, as well as the tax effects of these non-GAAP adjustments.

We define Non-GAAP Operating Profit as income (loss) from operations adjusted to exclude the impact of non-cash charges for share-based compensation, transaction-related costs and adjustments, restructuring and transformation charges, costs related to the Hosted Exchange incident, the amortization of acquired intangible assets, goodwill and asset impairment charges, and certain other non-operating, non-recurring or non-core gains and losses.

We define Adjusted EBITDA as net income (loss) adjusted to exclude the impact of non-cash charges for share-based compensation, transaction-related costs and adjustments, restructuring and transformation charges, costs related to the Hosted Exchange incident, certain other non-operating, non-recurring or non-core gains and losses, interest expense, expenses for our Receivables Purchase Facility, income taxes, depreciation and amortization, and goodwill and asset impairment charges.

Non-GAAP Operating Profit and Adjusted EBITDA are management’s principal metrics for measuring our underlying financial performance. Non-GAAP Operating Profit and Adjusted EBITDA, along with other quantitative and qualitative information, are also the principal financial measures used by management and our Board in determining performance-based compensation for our management and key employees.

These non-GAAP measures are not intended to imply that we would have generated higher income or avoided net losses if the November 2016 merger and the subsequent transactions and initiatives had not occurred. In the future we may incur expenses or charges such as those added back to calculate Non-GAAP Net Income (Loss), Non-GAAP Operating Profit or Adjusted EBITDA. Our presentation of Non-GAAP Net Income (Loss), Non-GAAP Operating Profit and Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by these items. Other companies, including our peer companies, may calculate similarly-titled measures in a different manner from us, and therefore, our non-GAAP measures may not be comparable to similarly-titled measures of other companies. Investors are cautioned against using these measures to the exclusion of our results in accordance with GAAP.

(a) Includes purchase accounting adjustments, exploratory acquisition and divestiture costs, and expenses related to financing activities.

(b) Includes consulting and advisory fees related to business transformation and optimization activities, as well as associated severance, certain facility closure costs and lease termination expenses. Also includes payroll taxes associated with the exercise of stock options and vesting of restricted stock. The year ended December 31, 2024 also includes a \$9.0 million Master Economic Incentives Agreement early termination fee associated with the sale of our corporate headquarters in March 2024.

(c) Includes gains and losses on investment and from dispositions.

(d) Interest expense impact due to the accounting for contractual interest payments on debt instruments entered into as part of the March 2024 Refinancing Transactions, which reduced interest expense relative to contractual interest cost.

(e) Primarily consists of foreign currency gains and losses.

(f) All of our intangible assets are attributable to acquisitions, including the November 2016 merger.

(g) We utilize an estimated structural long-term non-GAAP tax rate in order to provide consistency across reporting periods, removing the effect of non-recurring tax adjustments, which include but are not limited to tax rate changes, U.S. tax reform, share-based compensation, audit conclusions and changes to valuation allowances. We used a structural non-GAAP tax rate of 26% for all periods which reflects the removal of the tax effect of non-GAAP pre-tax adjustments and non-recurring tax adjustments on a year-over-year basis. The non-GAAP tax rate could be subject to change for a variety of reasons, including the rapidly evolving global tax environment, significant changes in our geographic earnings mix including due to acquisition activity, or other changes to our strategy or business operations. We will re-evaluate our long-term non-GAAP tax rate as appropriate. We believe that making these adjustments facilitates a better evaluation of our current operating performance and comparisons to prior periods.

(h) Primarily consists of foreign currency gains and losses and expense related to our Receivables Purchase Facility.

(i) Excludes accelerated depreciation expense related to facility closures.

Non-GAAP Earnings (Loss) Per Share

We define Non-GAAP Earnings (Loss) Per Share as Non-GAAP Net Income (Loss) divided by our GAAP weighted average number of shares outstanding for the period on a diluted basis and further adjusted for the weighted average number of shares associated with securities which are anti-dilutive to GAAP loss per share. Management uses Non-GAAP Earnings (Loss) Per Share to evaluate the performance of our business on a comparable basis from period to period, including by adjusting for the impact of the issuance of shares.

- (a) Potential common share equivalents consist of shares issuable upon the exercise of stock options, vesting of restricted stock units (including performance-based restricted stock units) or purchases under the Employee Stock Purchase Plan, as well as contingent shares associated with our acquisition of Datapipe Parent, Inc. Certain of our potential common share equivalents are contingent on certain investment funds managed by affiliates of Apollo Global Management, Inc. achieving pre-established performance targets based on a multiple of their invested capital, which are included in the denominator for the entire period if such shares would be issuable as of the end of the reporting period assuming the end of the reporting period was the end of the contingency period.
- (b) Reflects the aggregate adjustments made to reconcile Non-GAAP Net Loss to our net loss, as noted in the above table, divided by the GAAP diluted number of shares outstanding for the relevant period.
